Proposal for Preparing an Alumni Database and Setting up an Alumni Web-site

“ALUMNI RELATIONS”

Proposed by:

Alok Mohan

&

Arunanand T A

2010 CS

Our Mission:

To support the interests of its alumni, and its current and future students, through the development of mutually beneficial relationships.

Our Vision:

To unite all alumni of college and provide alumni involvement and communication with their alma mater and to see that alumni are recognized as a respected and integral part of the College community.

Our Principles:

We believe a College should be a cooperative enterprise, a community of students, faculty, staff, and alumni. Collectively and individually, all are responsible for developing, supporting, and sustaining the objectives of the institution.

We believe that the division of these responsibilities and the organizational approach may vary from institution to institution. However, inherent in all such concepts is the premise that alumni have a continuing obligation to serve their alma mater.

We believe alumni are in a unique position to provide advice and counsel. We believe that alumni can best serve the College by joining together in an association that can promote and focus support and service and that the concepts for developing the alumni association's organizational policies should be determined by the alumni themselves.

Purpose of the Proposal:

The Purpose of this Proposal is to Prepare an Alumni database and Setting up an alumni Website for Alumni Interaction.

We would like to put forward this proposal as a new initiative taken by Students of 2010 Batch, College of Engineering Chengannur.
